

European Forest Institute

European forests

- Cover 40% of EU land
- Key for the sustainability of: biodiversity, water and soil
- Capture 10% of CO2 emissions
- Main source of non-food, non feed renewable biological resources

VISION

A world where forests significantly
contribute to sustainable wellbeing

MISSION STATEMENT

Connecting knowledge to action

EFI Strategy 2025 and how we implement it

Thematic framework

Bioeconomy, Governance & Resilience

Siraanamwong, Larisa Lofitskaya, Stephan Leyk/Fotolia

An ambitious forest research and innovation area

- We aim to provide European forest research organisations with the resources, capacities and infrastructures they need to maximise their scientific and societal impact.

Franck Boston-Fotolia

Policy Support Facility

- **Contextualizes and synthesizes** scientific knowledge on European forests
- **Delivers High-level ThinkForest events**
