

Young Leadership

Eurasia

Day 1 Monday, 11 March

8:30

On-site registration at the Joensuu Science Park, Länsikatu 15, Joensuu

Opening event

"Leadership and transformational change towards the bioeconomy"

9:00

Welcome

Dr. Jukka Mönkkönen, Rector, University of Eastern Finland (UEF)

Dr. Marc Palahí, Director of the European Forest Institute (Seminar Chair)

The Global Goals

PROFILE AREAS

in research

Finding solutions to the complex challenges of our changing world calls for an ability to think and combine things in a novel way.

Research and education are expected to provide interdisciplinary solutions and skills to create a responsible and sustainable future.

**ENVIRONMENTAL
CHANGE AND SUFFICIENCY
OF NATURAL RESOURCES**

Environmental change and sufficiency of natural resources

Focus areas In research

- ▣ Forests, global change and bioeconomy
- ▣ Aerosols, climate change and human health
- ▣ Sustainable governance of natural resources

Strong expertise

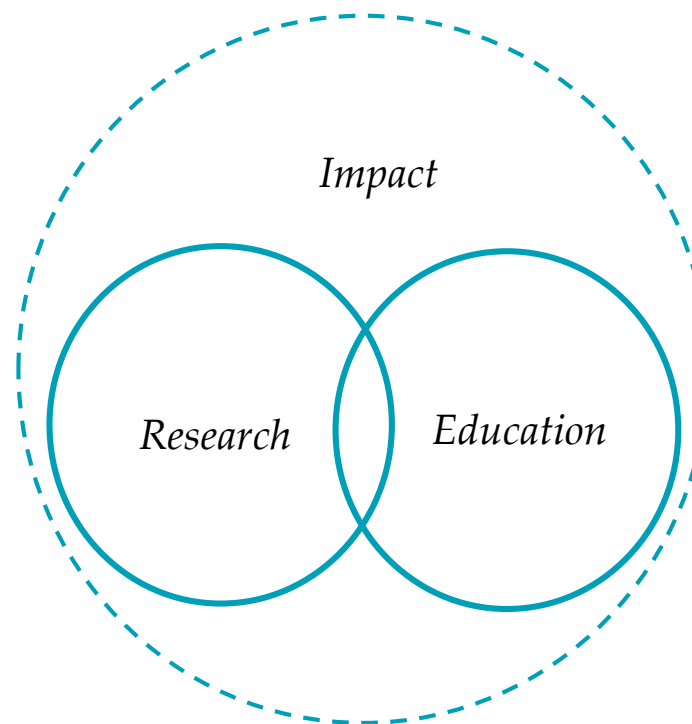

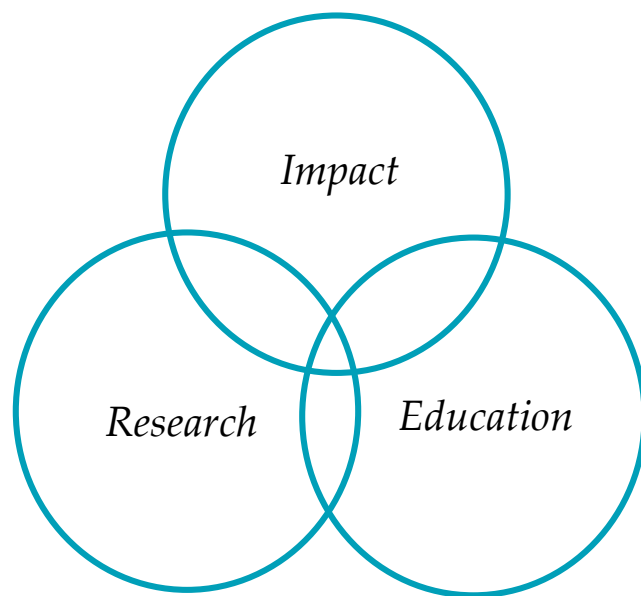

- ▣ Aerosol physics and chemistry
- ▣ Plant and forest ecology
- ▣ Biogeochemistry
- ▣ Environmental health
- ▣ Mathematical modelling
- ▣ Environmental policy and law

Expertise to be strengthened

- ▣ Energy technology
- ▣ Business modelling
- ▣ Geoinformatics
- ▣ Big data and artificial intelligence

Impact is created by open research and education

Openness is a way to make impact part of a university's core activities. This way, impact constitutes an integral part of the university's research and education activities; not a separate interaction activity.
