

Integrated Forest Fire management

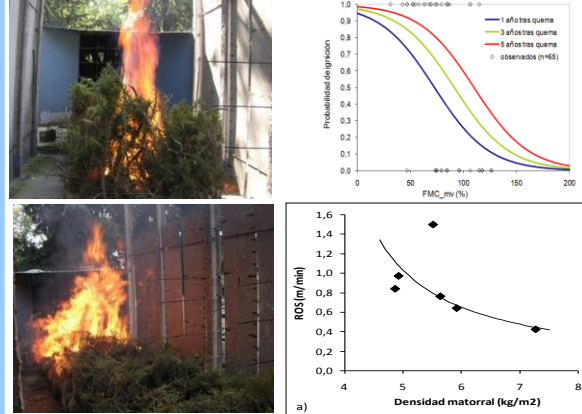

- ✓ Research
- ✓ Advisory services to companies
- ✓ R & D Transfer and Dissemination for forest management
- ✓ Teaching and Training: Professional, University and Scientific

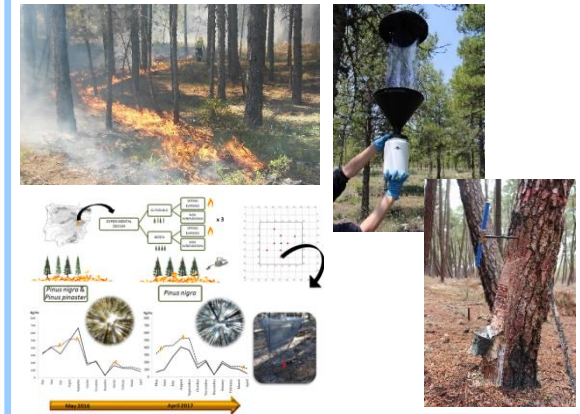

Forest fuels characterization

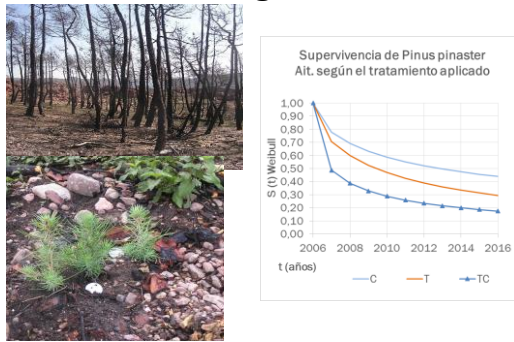

Fire behaviour modelling

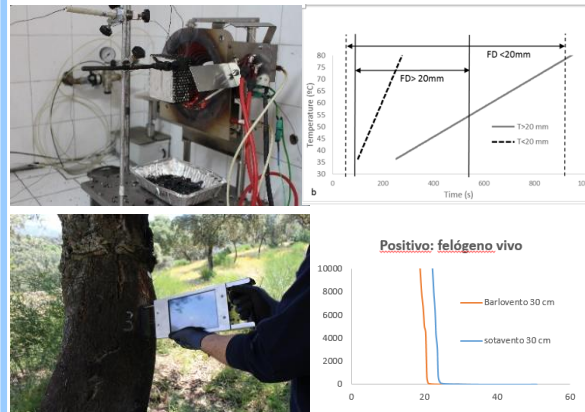

Fuel management treatments

Post-fire regeneration and management

Effects of fire on trunks

Effectiveness of chemical products for fire suppression

Experimental devices and infrastructures

Indoor Laboratory

Outdoor Laboratory

MULTI-SCALE
APPROACH

- Permanent plots
Monte Fraguas (1999)
- Rodenal de Guadalajara (2006)
- Serranía de Cuenca (2016)
