Grant ref no, title	G-04-2024, Establishing Climate-Smart Forestry and forest restoration pilots in Europe		
Activity to be supported by the grant	The aim of this Call for third party grants is to set up Climate-Smart Forestry (CSF) and forest restoration pilots across Europe as a basis for developing an evidence-based understanding of effective CSF and restoration management practices in supporting climate change mitigation, adaptation, and biodiversity. Supported projects and activities should establish new field trials in forests for CSF and restoration management practices or test new practices in existing field trials.		
	Beneficiary	Domicile of the Beneficiary	Maximum grant value
