

European Forest Institute
Grant process G-06-2023
Characterization of European forest disturbances
Questions and answers

Published 15 December 2023

#	Question	Answer
1.	Armenia is eligible for funding under the EU Horizon Europe Research and Innovation Programme, also considering a potential of Hop-on facility for Widening countries (For HE Pillar II). Therefore, I would like to clarify whether a legal entity from Armenia can submit its application for this grant call.	Pre-assessment of a potential applicant in respect of meeting the eligibility criteria is not possible. All the eligibility information for this call is available at: https://efi.int/grantstraining/grants/G-06-2023 . The eligibility criteria can be found in section IV of the call for grants and section 3 of the grant submission guidelines.
2.	We understand that satellite data will lead to a newly harmonized and standardized system to better forest management across Europe but is this call also targeting other data collection methods like long flying UAVs ?	The target for FORWARDS grants is pan-European. All sources of data are welcome as long as they can be useful for monitoring disturbance over the whole of Europe.
